## Work Experience

---

### Programmer Analyst I — UST MFG LLC

Feb 2023 – Present

- Developed and optimized in-house applications using C#, enhancing system efficiency and user experience.
- Led migration of a warehouse receiving system from WinForms (.NET 4.6) to ASP.NET 8 with Entity Framework Core.
- Automated the warehouse receiving process, saving hours per day per user.
- Rewrote a PHP-based quoting system in ASP.NET 8 + EF Core for scalability and performance.
- Enhanced a large quoting platform used by Account Managers and Executives, improving price estimation workflows.
- Facilitated user feedback sessions to improve UX and squash bugs.

### Inventory Clerk — Nutraceutical

Aug 2019 – Feb 2023

- Streamlined order tracking and communication via Outlook and Teams.
- Resolved technical issues to support warehouse operations.
